

Overview:

SEWP is a United States governmentwide acquisition contract (GWAC) authorized by the U.S. Office of Management and Budget (OMB) and managed by the National Aeronautics and Space Administration (NASA). All Federal agencies, including the Department of Defense (DOD), and government contractors are able to purchase IT equipment and services from SEWP-authorized resellers (known as "Contract Holders"). In Fiscal Year 2009, more than 70 federal agencies purchased IT solutions through the contract vehicle. As of 2018, 87 cabinet-level agencies and commissions have used SEWP. SEWP covers a vast range of IT solutions such as such as laptops, servers, tablets, peripherals, network equipment, storage systems, software products, cloud based services, telecommunications, security tools, as well as product-centric services such as installation, training, engineering, and maintenance services. As of October 1,2020, the SEWP surcharge for all orders is a 0.34%. The fee is included in the price of all products and is not separately listed on quotes. It is the Contract Holder’s responsibility to pay the fee from their quoted product prices.

Better Direct, LLC

Period of Performance: 05/01/2020 – 04/30/2025

Group A: NNG15SD45B - Full & Open
